PROFESSIONAL EXPERIENCE

Software Engineer

Specno — An Innovation Agency

11/2021 - Present, Cape Town, SA

- Currently contributing to Raptor Technologies, a school safety SaaS platform serving over 60,000 schools across 55 countries, using Vue 3, .NET, Docker, and Azure.
- Led development of Mirai (2024–2025), a goal-setting gamification mobile app built with React Native, Expo, Skia, Firebase, TanStack Query, Zustand, and OpenAI integration.
- Served as Senior Frontend Engineer on Momint (2023–2024), an NFT solar energy marketplace using Angular, Ionic, NestJS, MongoDB, Solidity, and Web3 technologies.
- Acted as Lead Fullstack Developer on SBA Reading (2022–2023), a multilingual children's reading PWA with coloring book features, built with Angular, Ngrx, and Firebase.
- Worked as Frontend Developer on Old Mutual ANDTHIS (2021–2022), a mall shopping app using Angular, Ngrx, Ionic, and Capacitor.

Frontend Developer

Longbeard

03/2021 - 10/2021, Remote (Rome, Italy)

- Worked in a concurrent freelance role building and maintaining websites for international clients.
- Utilized React, Gatsby, GraphQL, PHP, and WordPress.
- Handled site checks, updates, and minor feature implementations.

Lead Frontend Developer

Adept ICT

03/2019 - 11/2021, Stellenbosch, SA

- Led major dashboard migration from legacy Vaadin framework to modern Vue ecosystem.
- Built internal tools and client-facing dashboards using HTML, SASS, Bootstrap, Vue 2, Vue Composition API, Java, Docker, Vert.x, and Azure.
- Actively contributed to the South African Vue community and co-organized VueConfSA alongside Shailen Naidoo (cancelled due to COVID).

OBJECTIVE

Senior full-stack software engineer with over 7 years of experience shipping cross-platform products across Angular, React Native, Vue, NestJS, and blockchain. Currently at Specno, where I lead development on projects ranging from NFT solar energy marketplaces to gamification apps, and I now contribute to Raptor Technologies, a school safety SaaS serving over 60,000 schools in 55 countries. I am passionate about mentoring developers, driving cross-team collaboration, and building scalable systems that empower teams.

SKILLS

- Mentoring
- Collaboration
- Problem Solving

EDUCATION

Full Stack Web Development, Life Choices Academy, Cape Town

2018 - 2019

Intensive programme covering HTML, CSS, JavaScript, PHP, MySQL, design thinking, and professional development.

Computer Systems Engineering, CPUT Bellville, Cape Town

2017

Electrical Engineering, CPUT Bellville, Cape Town

2014 - 2016

TECHNICAL SKILLS

Frontend

Angular, Vue 3 (Composition API), React, React Native (Expo, Skia), Ionic, Capacitor, Ngrx, Zustand, Pinia, TanStack Query, Tailwind CSS, SASS/Bootstrap

Backend

.NET, NestJS, Node.js, Express, Java / Vert.x, Firebase, REST APIs, GraphQL

Blockchain

Solidity, Web3, NFT Smart Contracts

Infrastructure

Docker, Azure, Firebase (Auth, Firestore, Storage), CI/CD Pipelines, Microservices Architecture

Testing

Jest, Puppeteer, Mockito, Selenium, Unit / Integration / E2E Testing

Tools

Git, GitHub, Jira, Figma, VS Code, Xcode, Android Studio

PROJECTS

Raptor Technologies, Software Engineer

2024 - Present

School safety platform serving over 60,000 schools across 55 countries. Contributing to platform engineering on shared microservices, cross-team systems, and technical direction.

Mirai, Lead Software Engineer

2024 - 2025

Goal-setting and habit-tracking gamification app. Led development of the React Native/Expo mobile app with AI-powered goal suggestions, visual progress tracking with Skia animations, and subscription management via RevenueCat.

Momint, Senior Frontend Engineer

2023 - 2024

NFT solar energy marketplace combining blockchain technology with renewable energy investment. Built the frontend and hybrid mobile app enabling users to purchase fractional solar panel NFTs and earn returns from energy production.

SBA Reading, Lead Fullstack Developer

2022 - 2023

Multilingual children's reading app in 3 South African languages with an interactive coloring book feature. Designed for accessibility and engagement in educational settings.
